DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Miller et al. (US 4,149,148) discloses airspeed displayed for an aircraft (col. 6, lines 1-15) but fails to explicitly disclose third and fourth flight limit being higher than second flight and which defines second prohibited range of flight being any value exceeding fourth flight limit, fourth flight limit corresponding to the maximum speed that the aircraft can assume with all its flaps deployed and without risk to its structural integrity, augmented by a reduced loading margin, mobile longitudinal scale scrolling up and down relative to marker as a function of the current angle of attack of the aircraft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
